BUSINESS CHALLENGES

Your systems make your company tick. You know you need them, badly. But the world is changing and you have to quickly adapt your systems to respond to new realities, opportunities and technologies. You need to work with your data anywhere. And you need to connect your current SAP® system to new services.

Even to be able to innovate, to prototype, to try new solutions or to develop new functionalities around SAP® to better serve your core business.

But you have to do everything quickly, without breaking anything, while maintaining operation costs in check.

You're ready to enter to the world of CIOs and CFOs that **love GeneXus™.**

THE MOST COMMON PROBLEMS

YOU ARE HERE
WORRIED AT LEAST ABOUT SOME OF THEM

MOBILIZE

Bringing your current systems to the mobile devices of your workforce and clients.

EXTEND

Extending your business processes and data to a wider audience in your markets and communities.

ADAPT

Creating new functionalities for your current systems to respond to your business needs.

INTEGRATE

Integrating different systems (SAP®, non-SAP® systems, APIs, ERPs & more) into a unique software solution.

LEVERAGE INVESTMENTS

Evolving without losing your large previous investments in your business software systems.

MIGRATE

Moving from one platform to another one without missing a bit of information or functionalities.

MODERNIZE

Transitioning from old technologies to newer one, while maintaining operations running.

DATA

Crossing data across SAP® Modules and non-SAP® systems, aggregating data and creating solid reports.

YOUR TOP PROBLEM

Innovate at the speed of light while maintaining costs in check and current systems working.
